Studies by the Bengaluru-based Swami Vivekananda Yoga Anusandhana Samsthana (S-VYASA) analysed the changes that take place in the body during Om meditation. The study found "small but statistically significant" reduction in heart-rate during Om meditation. This, according to the researchers, suggests a deep psycho physiological relaxation, which in turn increases alertness. The study also showed decrease in blood flow in the skin, which, too, is indicative of improved alertness.

Some studies based on the analysis of electroencephalographic (EEG) recordings have shown that mindfulness meditation improves relaxation. One study that looked at performance in cancellation tasks (a psychometric test of visual perception and vigilance) in 70 healthy subjects-some of them meditated before the task-found that performance in such tasks improves after meditation. Researchers have demonstrated that meditation leads to positive changes in midbrain-associated with vision, hearing, motor control sleep and alertness-whether one choose to meditate on a single syllable or a series of thoughts, Transcendental meditation, which uses a sound or mantra, improves perception of hearing. In the various studies done by S-VYASA on sleep and meditation, it is said meditation in many ways is similar to a deep state of sleep. Bodily sensation is voluntarily reduced in both these conditions. However, unlike in sleep, the level of awareness is significantly higher in meditation.

'ChanakyaNeeti' is synonymous with efficient statecraft around the world, and Chanakya is India's face of political statecraft and the rich political understanding of its ancient heritage. No political efficiency is devoid of understanding Chanakya and his ways of statecraft. In fact, he showed the world what political theory is in practice. Ancient Indian history is incomplete without a reference to his ways of statecraft and politics.

Chanakya amazes any scholar with his multifaceted character, but it had a distinct focused aim. He was more about philosophy and thoughts put into action. He does not bore you with his philosophical theory but engages you to think, act and achieve what you dream of. He overthrew a mighty empire and put in the throne a humble man like Chandragupta Maurya. He identified the potential ruler from a group of children, thus gave the world a great sovereign who united the Indian subcontinent into a political and administrative unit.

For sure, Chanakya's mental capabilities were superb. The modern global diplomacy revolves around his principal of 'saam, daam, dand, bhed' (persuade, purchase/ set a price upon, punish, exploit the weakness). His 'Arthashastra' elevates the state to a position where service to it entails imperatives unknown to morality.

Chanakya would be identified as a professor of political science and economics at Taxila. He was an economic, political and royal adviser and a think tank, and can be credited to have given India its first complex united empire.
