MAXIMUM MARKS: 100

TIMING: 3 Hours

Advanced Accounting**Q. No. 1 is compulsory.****Wherever necessary suitable assumptions should be made by the candidates.****Working notes should form part of the answer.****Candidates are also required to answer any five questions from the remaining six questions.****Answer 1:**

- (a) Exchange differences arising on restatement or repayment of liabilities incurred for the purpose of acquiring fixed assets should be adjusted in the carrying amount of the respective fixed assets as Path Ltd. has exercised the option and it is long term foreign currency monetary item.

} **2M**

Thus, the entire exchange loss due to variation of Rs. 20 lakhs on 31.03.2015 on payment of US \$ 10 lakhs, should be added to the carrying amount of fixed assets and not to the cost of goods sold.

Calculation of Exchange loss:

Foreign currency loan (in Rs.) = (50 lakhs \$ x Rs. 60) = Rs. 3,000 lakhs

Exchange loss on outstanding loan on 31.03.2015 = Rs. 40 lakhs US \$ x (62.00-60.00) = Rs. 80 lakhs.

} **2M**

So, Rs. 80 lakhs should also be added to cost of fixed asset with corresponding credit to outstanding loan in addition to Rs. 20 lakhs on account of exchange loss on payment of instalment. The total cost of fixed asset to be increased by Rs. 100 lakhs.

Total depreciation to be provided for the year 2014 -15 = 20% of (Rs. 3,000 lakhs + 100 lakhs) = Rs. 620 lakhs.

} **1M**

(b)

- (i) Whether a subsidy applied is to be classified as prior period item as per AS 5, depends upon whether the company has committed an error in 2013 -14 by not recognising the subsidy? The answer is in para 13 of AS 12 "Accounting for Government Grants" which permits recognition of grant only when there is reasonable assurance that (i) the enterprise will comply with the conditions attached to them and (ii) the subsidy will be received. Mere making of an application does not provide the reasonable assurance that the subsidy will be received. Letter of sanction from IREDA is required to provide this assurance. Since, the subsidy was granted in June, 2014 after approval of accounts, non - recognition of grant in 2013-14 will not be considered as an error. Hence, this is not a prior period item. Therefore, the company was right in not recognizing the grant.

} **3M**

Further, AS 4 requires adjustment of events occurring after the balance sheet date only upto the date of approval of accounts by the Board of Directors. In view of this, the company is correct in not adjusting the same in the accounts in the year 2013-14.

- (ii) The subsidy should be deducted from the cost of the generator. The revised unamortised amount of generator should be written off over the remaining useful life.

Alternatively, the same may be treated as Deferred Income and allocated over the remaining useful life in the proportion in which depreciation is charged. **→2M**

(c) For the information given, the following will be recommended treatment with reference to the provisions of AS 4: Contingencies and Events Occurring After the Balance Sheet Date.

(1) The event is a non-adjusting event since it occurred after the year -end and does not relate to the conditions existing at the year -end. However, the event would appear to be of such significance as to require a disclosure in the report of the approving authority to enable users of the financial statements to make proper evaluation and decision, hence, such disclosure is recommended. **→2M**

(2) AS 4 defines events occurring after the balance sheet date as those significant event-both favorable and unfavorable – that occur between the balance sheet date and the date on which the financial statements are approved by the approving authority. Accordingly, negotiation for acquisitions of two manufacturing units which started on 30th April, 2015 should be disclosed in the Board’s Report. No adjustments of assets and liabilities are required, as the negotiation does not affect the determination and the conditions of the amounts stated in the financial statements for the year ended 31st March, 2015. **→2M**

(3) The foreign exchange loss due to changes in exchange rates during the period 1st April 2015 and 1st June 2015, is a non adjusting event since it does not relate to the conditions existing at the balance sheet date. The amount of loss appears material and may be of such significance that requires disclosure in the report of the approving authority. **→1M**

(d) Determination of Nature of Lease

Present value of unguaranteed residual value at the end of 3rd year

$$= \text{Rs. } 50,000 \times 0.7513 = \text{Rs. } 37,565$$

Present value of lease payments

$$= \text{Rs. } 5,00,000 - \text{Rs. } 37,565$$

$$= \text{Rs. } 4,62,435$$

The percentage of present value of lease payments to fair value of the equipment is $(\text{Rs. } 4,62,435 / \text{Rs. } 5,00,000) \times 100 = 92.487\%$. **→5M**

Since, it substantially covers the major portion of the lease payments, the lease constitutes a finance lease.

½ × 6 = 3M

6. (i) Calculation of the number of equity shares and preference shares to be allotted by Careful Ltd. in discharge of purchase consideration

Calculation of purchase consideration:	Rs.
Agreed value of assets taken over:	

Bills receivable	15,000
Freehold premises	4,00,000
Furniture & fittings	80,000
Machinery	1,60,000
Inventory	<u>3,45,000</u>
	<u>10,00,000</u>

Discharge of purchase consideration:

1. Amount paid by allotment of 13% preference shares
 = Rs. 10,00,000 × $\frac{1}{4}$ = Rs. 2,50,000

Number of 13% preference shares of Rs. 100 each
 = $\frac{2,50,000}{100}$ = 2,500 preference shares → **3M**

2. Amount paid by allotment of equity shares
 = Rs. 10,00,000 – Rs. 2,50,000 = Rs. 7,50,000 Paid
 up value of one equity share = Rs. 8 each
 Hence, the number of equity shares allotted =

$\frac{Rs. 7,50,000}{Rs. 8}$ = 93,750 equity shares → **3M**

(ii) Ledger accounts in the books of Reckless Ltd.

		<u>10,00,000</u>			<u>10,00,000</u>

→ 1M

Answer 7:

(a) **Computation of theoretical ex-rights fair value per share**

Fair value of all outstanding shares immediately prior to exercise of rights + Total amount received from exercise of rights

Number of shares outstanding prior to exercise + number of shares issued in the exercise

$(Rs. 21.00 \times 5,00,000 \text{ shares}) + (Rs. 15.00 \times 1,00,000 \text{ shares})$

5,00,000 shares + 1,00,000 shares

Theoretical ex-rights fair value per share = Rs. 20.00 → 2M

(a) **Computation of adjustment factor**

(b) $\frac{\text{Fair value per share prior to exercise of rights}}{\text{Theoretical ex - rights value per share}} = \frac{Rs. (21.00)}{Rs. (20.00)} = 1.05$

Computation of earnings per share

	Year 2013-14	Year 2014-15
EPS for the year 2013-14 as originally reported: (Rs. 11,00,000/5,00,000 shares)	Rs. 2.20	
EPS for the year 2013-14 restated for rights issue: [Rs. 11,00,000/ (5,00,000 shares x 1.05)]	Rs. 2.10	
EPS for the year 2014-15 including effects of rights issue $\frac{\text{Rs. 15,00,000}}{(5,00,000 \times 1.05 \times 2 / 12) + (6,00,000 \times 10 / 12)}$		Rs. 2.55

→ 2M

- (b) As per AS 26 „Intangible Assets”, the depreciable amount of an intangible asset should be allocated on a systematic basis over its useful life. Also there is a rebuttable presumption that the useful life of an intangible asset will not exceed 10 years from the date it is available for use. The amortization should commence when the asset is available for use. As per para 78 of AS 26, if there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method should be changed to reflect the changed pattern.

→ 2M

The company has been following a policy of amortization over a period of 8 years. As on 01-4-2015, 5 years have passed and the carrying amount stands at Rs. 30 lakhs. If the same treatment were to be continued, this would have been amortized over the next 3 years. But the revised estimate of remaining useful life would extend the period by another 5 years to amortize the carrying amount, the Company would be advised to amortise the carrying value over the next 5 years. Thus after revision in estimated useful life, the amount of Rs. 30 lacs would be amortised over next 5 years.

- (c) Investments other than investment properties are not qualifying assets as per AS 16 “Borrowing Costs”. Therefore, interest cost of holding such investments cannot be capitalized. Further, even interest in respect of investment properties can only be capitalized if such properties meet the definition of qualifying asset, namely, that it necessarily takes a substantial period of time to get ready for its intended use or sale. Even where the investment properties meet the definition of 'qualifying asset', for the capitalisation of borrowing costs the other requirements of the standard such as that borrowing cost should be directly attributable to the acquisition or construction of the investment property and suspension of capitalization as per paragraphs 17 and 18 of AS 16 have to be complied with.
