**Computation of claim for loss of stock**

	Rs.
Stock on the date of fire i.e. on 30 <sup>th</sup> March, 20X2 (W.N.1)	62,600
Less: Value of salvaged stock	(12,300)

<b>Amount of claim</b> = $\frac{\text{Insured Value}}{\text{Total cost of stock on the date of fire}} \times \text{Loss of stock}$	48,211 (approx.)
$= \frac{60,000}{62,600} \times 50,300$	

A claim of Rs. 48,211 (approx.) should be lodged by M/s Suraj Brothers to the insurance company.

**Working Notes:**

- Calculation of closing stock as on 30<sup>th</sup> March, 2012

**Memorandum Trading Account for  
(from 1<sup>st</sup> January, 20X2 to 30<sup>th</sup> March, 20X2)**

Particulars	Amount (Rs.)	Particulars	Amount (Rs.)
To Opening stock	95,600	By Sales (W.N.3)	2,42,000
To Purchases (1,70,000-30,000)	1,40,000	By Goods with customers (for approval) (W.N.2)	26,400*
To Wages (50,000 – 3,000)	47,000	By Closing stock (Bal. fig.)	62,600
To Gross profit (20% on sales)	48,400		
	3,31,000		3,31,000

- Calculation of goods with customers**  
Since no approval for sale has been received for the goods of Rs. 33,000 (i.e. 2/3 of Rs. 49,500) hence, these should be valued at cost i.e. Rs. 33,000 – 20% of Rs. 33,000 = Rs. 26,400.

- Calculation of actual sales**  
Total sales – Sale of goods on approval (2/3<sup>rd</sup>)= Rs.2,75,000 – Rs. 33,000 = Rs. 2,42,000.

- (b)** As per para 21 of AS 12, 'Accounting for Government Grants', "the amount refundable in respect of a grant related to specific fixed asset should be recorded by reducing the deferred income balance. To the extent the amount refundable exceeds any such deferred credit, the amount should be charged to profit and loss statement. {1 M}
- (i) In this case the grant refunded is Rs. 15 lakhs and balance in deferred income is Rs. 10.50 lakhs, Rs. 4.50 lakhs shall be charged to the profit and loss account for the year 2017-18. There will be no effect on the cost of the fixed asset and depreciation charged will be on the same basis as charged in the earlier years. {2 M}
- (ii) If the grant was deducted from the cost of the plant in the year 2014-15 then, para 21 of AS 12 states that the amount refundable in respect of grant which relates to specific fixed assets should be recorded by increasing the book value of the assets, by the amount refundable. Where the book value of the asset is increased, depreciation on the revised book value should be provided prospectively over the residual useful life of the asset. Therefore, in this case, the book value of the plant shall be increased by Rs. 15 lakhs. The increased cost of Rs. 15 lakhs of the plant should be amortized over 7 years (residual life). Depreciation charged during the year 2017-18 shall be  $(56+15)/7$  years = Rs. 10.14 lakhs presuming the depreciation is charged on SLM.) {2 M}

**Answer**

- (c) Para 17 of AS 1 'Disclosure of Accounting Policies', states that financial statements should disclose all material items, i.e., items the knowledge of which might influence the decisions of the user of the financial statements. Materiality depends on the size of item or error judged in the particular circumstances of its omission or misstatement. **{2 M}**
- From a positive perspective, materiality has to do with the significance of an item or event to warrant attention in the accounting process. From a negative view point, materiality is critical because otherwise a great deal of time might be spent on trivial matters in the accounting process. **{1 M}**
- Individual judgments are required to assess materiality, or to decide what the appropriate minimum quantitative criteria are to be set for given situations. What is material to one organization, may not be material for another organization. **{1 M}**
- For example, a long term investor is interested in the current value of fixed asset like building, while the banker may not consider it significant for a short-term loan. Similarly a pair of scissors, ball pens, sharpeners, waste-paper baskets could be used for a number of years but still it is treated as an expense and not an asset. The omission of "paise" in the financial statements is also due to their insignificant effect to the users of the financial statement in making a decision. **{1 M}**

**Answer:**

- (d) Ex-right value of the shares =  $\frac{\text{Cum-right value of the existing shares} + \text{Rights shares} \times \text{Issue Price}}{\text{Existing Number of shares} + \text{Rights Number of shares}}$  **{1 1/2 M}**  
 =  $\frac{\text{Rs.150} \times 4 \text{ Shares} + \text{Rs.125} \times 1 \text{ Share}}{(4 + 1) \text{ Shares}}$  **{1 1/2 M}**  
 = Rs. 725 / 5 shares = Rs. 145 per share.
- Value of right = Cum-right value of the share – Ex-right value of the share **{1 M}**  
 = Rs. 150 – Rs. 145 = Rs. 5 per share.
- Hence, any one desirous of having a confirmed allotment of one share from the company at Rs. 125 will have to pay Rs. 20 (4 shares X Rs. 5) to an existing shareholder holding 4 shares and willing to renounce his right of buying one share in favour of that person. **{1 M}**
