## Answer:

(b) (i)

False; As per AS 1 "Disclosure of Accounting Policies", certain fundamental accounting assumptions underlie the preparation and presentation of financial statements. They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed.
(ii) False; As per AS 1, if the fundamental accounting assumptions, viz. Going Concern, Consistency and Accrual are followed in financial statements, specific disclosure is not required. If a fundamental accounting assumption is not followed, the fact should be disclosed.
(iii) True; To ensure proper understanding of financial statements, it is necessary that all significant accounting policies adopted in the preparation and presentation of financial statements should be disclosed. The disclosure of the significant accounting policies as such should form part of the financial statements and they should be disclosed in one place.
(iv) False; Any change in the accounting policies which has a material effect in the current period or which is reasonably expected to have a material effect in later periods should be disclosed. Where such amount is not ascertainable, wholly or in part, the fact should be indicated.
(v) True; As per AS 1, there is no single list of accounting policies which are) applicable to all circumstances. The differing circumstances in which enterprises operate in a situation of diverse and complex economic activity make alternative accounting principles and methods of applying those principles acceptable.

$\{10$ Item
X 1/2 M\}

## Working Notes:

1. Cost of shares sold - Amount paid for 8,000 shares

|  | Rs. |
| :--- | ---: |
| Rs. $60,000+$ Rs. $14,000+$ Rs. 12,500 ) | 86,500 |
| Less: Dividend on shares purchased on $1^{\text {st }}$ Sept, 2017 | $(2,000)$ |
| Cost of 8,000 shares | 84,500 |
| Cost of 4,000 shares (Average cost basis*) | 42,250 |
| Sale proceeds (4,000 shares @ 14/-) | 56,000 |
| Profit on sale | 13,750 |

*For ascertainment of cost for equity shares sold, average cost basis has been applied.
2. Value of investment at the end of the year

Closing balance will be valued based on lower of cost (Rs. 42,250 ) or net realizable value (Rs. $13 \times 4,000$ ). Thus investment will be valued at Rs. 42,250 . $\}$
3. Calculation of sale of right entitlement

1,000 shares $x$ Rs. 8 per share $=$ Rs. 8,000
Amount received from sale of rights will be credited to $P$ \& LA/c as per AS 13 'Accounting for Investments'
4. Dividend received on investment held as on $1^{\text {st }}$ April, 2017
$=4,000$ shares $\times$ Rs. $10 \times 20 \%$
$=$ Rs. 8,000 will be transferred to Profit and Loss A/c
Dividend received on shares purchased on $1^{\text {st }}$ Sep. 2017
$=1,000$ shares $\times$ Rs. $10 \times 20 \%=$ Rs. 2,000 will be adjusted to Investment A/c
Note: It is presumed that no dividend is received on bonus shares as bonus shares are declared on $30^{\text {th }}$ Sept., 2017 and dividend pertains to the year $\}$ ended 31.3.2017.

## Working Notes:

1: $\quad$ Sales Ratio $=10,000: 40,000=1: 4\}\left\{\mathbf{1}^{1 / 2} \mathbf{M}\right\}$
2: Time Ratio $=3: 9 \quad=1: 3\}\left\{\mathbf{1}^{1 / 2} \mathbf{M}\right\}$
3: Purchase Price Ratio
$\therefore$ Ratio is $3: 9$
But purchase price was $10 \%$ higher in the company period $\}\left\{\mathbf{1}^{1 / 4} \mathbf{M}\right\}$
$\therefore$ Ratio is $3: 9+10 \%$
3:9.9 = 1:3.3.

## Answer 6:

(a) As per para 21 of AS 12, 'Accounting for Government Grants', "the amount refundable in respect of a grant related to specific fixed asset should be recorded by reducing the deferred income balance. To the extent the amount refundable exceeds any such deferred credit, the amount should be charged to profit and loss statement. J
(i) In this case the grant refunded is Rs. 15 lakhs and balance in deferred income is Rs. 10.50 lakhs, Rs. 4.50 lakhs shall be charged to the profit and loss account for the year 2017-18. There will be no effect on the cost of the fixed asset and depreciation charged will be on the same basis as charged in the earlier years.
(ii) If the grant was deducted from the cost of the plant in the year 2014-15 then, para 21 of AS 12 states that the amount refundable in respect of grant which relates to specific fixed assets should be recorded by increasing the book value of the assets, by the amount refundable. Where the book value of the asset is increased, depreciation on the revised book value should be provided prospectively over the residual useful life of the asset. Therefore, in this case, the book value of the plant shall be increased by Rs. 15 lakhs. The increased cost of Rs. 15 lakhs of the plant should be amortized over 7 years (residual life). Depreciation charged during the year 2017-18 shall be $(56+15) / 7$ years $=$
Rs. 10.14 lakhs presuming the depreciation is charged on SLM.) Rs. 10.14 lakhs presuming the depreciation is charged on SLM.)

## Answer:

(b) Ex-right value of the shares $=$ (Cum-right value of the existing shares + Rights shares $X$ Issue Price) / (Existing Number of shares + Rights Number of shares)

$$
\begin{aligned}
& =(\text { Rs. } 150 \times 4 \text { Shares }+ \text { Rs. } 125 \times 1 \text { Share }) /(4+1) \text { Shares } \\
& =\text { Rs. } 725 / 5 \text { shares }=\text { Rs. } 145 \text { per share. } \\
\text { Value of right } & =\text { Cum-right value of the share }- \text { Ex-right value of the share } \\
& =\text { Rs. } 150-\text { Rs. } 145=\text { Rs. } 5 \text { per share. }
\end{aligned}
$$

Hence, any one desirous of having a confirmed allotment of one share from the company at Rs. 125 will have to pay Rs. 20 ( 4 shares $X$ Rs. 5) to an existing shareholder holding 4 shares and willing to renounce his right of buying one share in favour of that person.

## Answer:

(e) Para 17 of AS 1 'Disclosure of Accounting Policies', states that financial statements should disclose all material items, i.e., items the knowledge of which might influence the decisions of the user of the financial statements. Materiality depends on the size of item or error judged in the particular circumstances of its omission or misstatement.

From a positive perspective, materiality has to do with the significance of an item or event to warrant attention in the accounting process. From a negative view point, materiality is critical because otherwise a great deal of time might be spent on trivial matters in the accounting process.
Individual judgments are required to assess materiality, or to decide what the appropriate minimum quantitative criteria are to be set for given situations. What is material to one organization, may not be material for another organization.
For example, a long term investor is interested in the current value of fixed asset like building, while the banker may not consider it significant for a short-term loan. Similarly a pair of scissors, ball pens, sharpeners, waste-paper baskets could be used for a number of years but still it is treated as an expense and not an asset. The omission of "paise" in the financial statements is also due to their insignificant effect to the users of the financial statement in making a decision.
