(CA INTERMEDIATE MOCK TEST MAY 2021)

## ADVANCE ACCOUNTING

Answer to questions are to be given only in English except in the case of candidates who have opted for Hindi Medium. If a candidate who has not opted for Hindi Medium. His/her answer in Hindi will not be valued.

Question No. 1 is compulsory.
Candidates are also required to answer any Four questions from the remaining Five Questions.
In case, any candidate answers extra question(s)/sub-question(s) over and above the required number, then all answers shall be valued and best four will be considered.
Wherever necessary, suitable assumptions may be made and disclosed by way of note.

## Answer 1:

(a) Computation of Basic Earnings per Share

|  |  | $\begin{gathered} \text { Year 2012-13 } \\ \text { (Rs.) } \end{gathered}$ | Year 2013-14 (Rs.) |  |
| :---: | :---: | :---: | :---: | :---: |
| (i) | EPS for the year 2012-13 as originally reported $=$ Net profit for the year attributable to equity share holder/weighted average number of equity shares outstanding during the year $\frac{\text { Rs. } 22,00,000}{10,00,000 \text { shares }}$ shares | $2.20$ |  | (1/2 M) |
| (ii) | EPS for the year 2012-13 restated for the right issue $\frac{\text { Rs. } 22,00,000}{10,00,000 \text { shares x } 1.04}$ | 2.12 |  | ( $1 / 2 \mathrm{M}$ ) |
| (iii) | EPS for the year 2013-14 (including effect of right issue) $\frac{\text { Rs. } 30,00,000}{(10,00,000 \times 1.04 \times 4 / 12)+(12,00,000 \times 8 / 12)}$ |  | 2.62 | (2 M) |

## Working Notes:

1. Computation of theoretical ex-rights fair value per share $=$

Fair value of all outstanding shares immediately prior to exercise of rights + total amount received from exercise
Number of shares outstanding prior to exercise

+ number of shares issued in the exercise
$\frac{(\text { Rs. } 32 \times 10,00,1000)+(\text { Rs. } 25 \times 2,00,000)}{10,00,000+2,00,000}$
= Rs. 30.83

2. Computation of adjustment factor

Fair value per share prior to exercise of rights
Theoretical ex - rights value per share
$=\frac{\text { Rs. } 32}{\text { Rs. } 30.83}=1.04$ (approx.)

## Answer:

(b) As per AS 9 "Revenue Recognition", in a transaction involving the sale of goods, performance should be regarded as being achieved when the following conditions are fulfilled:
(i) the seller of goods has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the seller retains no effective control of the goods transferred to a degree usually associated with ownership; and
(ii) no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods.
Case (i)
The sale is complete but delivery has been postponed at buyer"s request. M/s Paper Products Ltd. should recognize the entire sale of Rs. 60,000 for the year ended 31st March, 2015.
Case (ii)
$20 \%$ goods lying unsold with consignee should be treated as closing inventory and sales should be recognized for Rs. 1,20,000 ( $80 \%$ of Rs. $1,50,000$ ). In case of consignment sale revenue should not be recognized until the goods are sold to a third party.
Case (iii)
In case of goods sold on approval basis, revenue should not be recognized until the goods have been formally accepted by the buyer or the buyer has done an act adopting the transaction or the time period for rejection has elapsed or where no time has been fixed, a reasonable time has elapsed. Therefore, revenue should be recognized for the total sales amounting Rs. $1,20,000$ as the time period for rejecting the goods had expired.
Case (iv)
Trade discounts given should be deducted in determining revenue. Thus Rs. 39,000 should be deducted from the amount of turnover of Rs. 7,80,000 for the purpose of recognition of revenue. Thus, revenue should be Rs. 7,41,000.
Thus total revenue amounting Rs. $10,41,000(60,000+1,20,000+1,20,000+7$ $7,41,000$ ) will be recognized for the year ended 31st March, 2015 in the books of M/s Paper Products Ltd.

## Answer:

(c) (i) Determination of nature of lease

Fair value of asset Rs. 7,00,000
Unguaranteed residual value Rs. 70,000
$\left.\begin{array}{rl}\text { Present value of residual value at the end of } 4 \text { th Year } & =\text { Rs. } 70,000 \times 0.683 \\ & =\text { Rs. } 47,810\end{array}\right\}(1 / 2 \mathbf{~ M})$
$\left.\begin{array}{rl}\text { Present value of lease payment recoverable } & =\text { Rs. } 7,00,000-\text { Rs. } 47,810 \\ & =\text { Rs. } 6,52,190\end{array}\right\}(\mathbf{1 ~ M})$
The percentage of present value of lease payment to fair value of the asset is

$$
\begin{aligned}
= & (\text { Rs. } 6,52,190 / \text { Rs. } 7,00,000) \\
& \times 100 \\
= & 93.17 \%
\end{aligned}
$$

Since it substantially covers the major portion of lease payments and life of the asset, the lease constitutes a finance lease.
(ii) - Calculation of Unearned finance income Annual lease payment

$$
\left.\begin{array}{l}
=\text { Rs. 6,52,190 / 3.169 } \\
=\text { Rs. 2,05,803 (approx.) }
\end{array}\right\} \text { (1 M) }
$$

- Gross investment in the lease

$$
\begin{aligned}
& =\text { Total minimum lease payments }+ \\
& \quad \text { unguaranteed residual value. } \\
& =(\text { Rs. } 2,05,803 \times 4)+\text { Rs. } 70000 \\
& =\text { Rs. } 8,23,212+\text { Rs. } 70,000=\text { Rs. } 8,93,212
\end{aligned}
$$

- Unearned finance income $=$ Gross investment - Present value of minimum lease payment and unguaranteed residual value.
$=$ Rs. 8,93,212 - Rs. 7,00,000
(Rs. $6,52,190$ + Rs. 47,810 )
$=$ Rs. 1,93,212

|  | Interest accrued on investments | $(10)$ | 8,820 |
| (ii) | Interest accrued on investments | 10 |  |
|  |  |  | 8,830 |

Note: Interest accrued on investments to be shown separately under Interest Earned.
(2) Calculation of Provisions and Contingencies

| Assets | Amount | \% of <br> Provision | Provision |
| :--- | ---: | ---: | ---: |
|  | (Rs. in '000) |  | (Rs. in '000) |
| Standard assets | 4,000 | 0.40 | 16 |
| Sub-standard assets* | 2,240 | 15 | 336 |
| Doubtful assets (unsecured) | 390 | 100 | 390 |
| Doubtful assets - covered by security |  |  |  |
| Less than 1 year | 100 | 25 | 25 |
| More than 1 year but less than 3 years | 600 | 40 | 240 |
| More than 3 years | 600 | 100 | 600 |
| Loss assets | 376 | 100 | 376 |
| Total provision | 8,306 |  | 1,983 |

*Note: It is assumed that sub-standard assets are fully secured.
(3) Calculation of provision on tax $=35 \%$ (Total income - Total expenditure)

$$
\begin{aligned}
& =35 \% \text { of Rs. }[(9,050-(2,720+2,830+1,983)] \\
& =35 \% \text { of Rs. } 1,517 \\
& =\text { Rs. } 530.95
\end{aligned}
$$

(4) Total provisions and contingencies = Rs. $1,983+$ Rs. $530.95=$ Rs. $2,513.95$.

## Answer 6: (Answer any four from the following)-

(a) Para 3 of AS 24 "Discontinuing Operations" explains the criteria for determination of discontinuing operations. According to Paragraph 9 of AS 24, examples of activities that do not necessarily satisfy criterion (a) of paragraph 3, but that might do so in combination with other circumstances, include:
(i) Gradual or evolutionary phasing out of a product line or class of service; \}\{1 M\}
(ii) Discontinuing, even if relatively abruptly, several products within an ongoing \}\{1 M\} line of business;
(iii) Shifting of some production or marketing activities for a particular line of $\}\{\mathbf{1} \mathbf{~ M}\}$ business from one location to another; and
(iv) Closing of a facility to achieve productivity improvements or other cost $\}\{\mathbf{1} \mathbf{M}\}$ savings.
An example in relation to consolidated financial statements is selling a subsidiary $\}\{\mathbf{1 / 2} \mathbf{M}\}$ whose activities are similar to those of the parent or other subsidiaries.

## Answer:

(d) - As per para 63 of AS 26 "Intangible Assets," the depreciable amount of an intangible asset should be allocated on a systematic basis over the best estimates of its useful life. There is a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. Amortization should commence when the asset is available for use.

- Base Limited has been following the policy of amortization of the intangible asset over a period of 12 years on straight line basis. The period of 12 years is more than the maximum period of 10 years specified as per AS 26.
- Accordingly, Base Limited would be required to restate the carrying amount of intangible asset as on 1.4 .2011 at Rs. 112 lakhs less Rs. 33.6 lakhs $\left(\frac{112 \text { lakhs }}{10 \text { year }} \times 3\right.$ years $)=$ Rs. 78.4 lakhs. The difference of Rs. 6.6 lakhs i.e. (Rs. 85 lakhs - Rs. 78.4 lakhs) will be adjusted against the opening balance of revenue reserve. The carrying amount of Rs. 78.4 lakhs would be amortized over remaining 7 year by Rs. 11.2 lakhs per year.

## Answer:

(e) According to AS 29 (Revised) 'Provisions, Contingent Liabilities and Contingent Assets', contingent liability should be disclosed in the financial statements if following conditions are satisfied:
(i) There is a present obligation arising out of past events but not recognised as provision.
(ii) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.
(iii) The possibility of an outflow of resources embodying economic benefits is not remote.
(iv) The amount of the obligation cannot be measured with sufficient reliability to be recognised as provision.

In this case, the probability of winning of first five cases is $100 \%$ and hence, question of providing for contingent loss does not arise. The probability of winning of next ten cases is $60 \%$ and for remaining five cases is $50 \%$. As per AS 29 (Revised), we make a provision if the loss is probable. As the loss does not appear to be probable and the possibility of an outflow of resources embodying economic benefits is remote, therefore disclosure by way of note should be made.
For the purpose of the disclosure of contingent liability by way of note, amount may be calculated as under:

Expected loss in next ten cases $=30 \%$ of Rs. $1,20,000+10 \%$ of Rs. $2,00,000$

$$
=\text { Rs. } 36,000+\text { Rs. } 20,000
$$

$$
=\text { Rs. 56,000 }
$$

Expected loss in remaining five cases $=30 \%$ of Rs. $1,00,000+20 \%$ of Rs. 2,10,000
= Rs. 30,000 + Rs. 42,000
= Rs. 72,000

To disclose contingent liability on the basis of maximum loss will be highly unrealistic. Therefore, the better approach will be to disclose the overall expected loss of Rs. $\}^{1 / 2 M}$ $9,20,000$ (Rs. $56,000 \times 10+$ Rs. $72,000 \times 5$ ) as contingent liability.
