## MOCK TEST PAPER 1

INTERMEDIATE: GROUP - I
PAPER-1: ACCOUNTING

## ANSWERS

1. (a) (i) False; As per AS 1 "Disclosure of Accounting Policies", certain fundamental accounting assumptions underlie the preparation and presentation of financial statements. They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed.
(ii) False; As per AS 1, if the fundamental accounting assumptions, viz. Going Concern, Consistency and Accrual are followed in financial statements, specific disclosure is not required. If a fundamental accounting assumption is not followed, the fact should be disclosed.
(iii) True; To ensure proper understanding of financial statements, it is necessary that all significant accounting policies adopted in the preparation and presentation of financial statements should be disclosed. The disclosure of the significant accounting policies as such should form part of the financial statements and they should be disclosed at one place.
(iv) False; Any change in the accounting policies which has a material effect in the current period or which is reasonably expected to have a material effect in later periods should be disclosed. Where such amount is not ascertainable, wholly or in part, the fact should be indicated.
(v) True; As per AS 1, there is no single list of accounting policies which are applicable to all circumstances. The differing circumstances in which enterprises operate in a situation of diverse and complex economic activity make alternative accounting principles and methods of applying those principles acceptable.
(b) (i) Entity A should account for a loss in the Statement of Profit and Loss on de-recognition of the carrying value of plant and machinery in accordance with AS 10 on Property, Plant and Equipment. Entity A should separately recognize a receivable and a gain in the income statement resulting from the insurance proceeds once receipt is virtually certain. The receivable should be measured at the fair value of assets provided by the insurer.
(ii) The expenditure in remodelling the store will create future economic benefits (in the form of $15 \%$ of increase in sales). Moreover, the cost of remodelling can be measured reliably, therefore, it should be capitalized in line with AS 10.

600 shares purchased at ₹ 12,000
900 shares purchased at ₹ 22,500
1,000 shares purchased at ₹ 23,000
2,500 shares at nil cost

Shares subscribed $=1,000 \times 60 \%=600$ shares
Value of right shares subscribed $=600$ shares @ ₹ 20 per share $=$ ₹ 12,000
Calculation of sale of right renouncement
No. of right shares sold $=1,000 \times 40 \%=400$ shares
Sale value of right $=400$ shares $x ₹ 3$ per share $=₹ 1,200$
Note: As per para 13 of AS 13, sale proceeds of rights is to be credited to P \& L A/c.
4. Profit on sale of equity shares

33,000.00
Less: Cost of shares sold ( $1,500 \times ₹ 11.875$ ) $(17,812.50)$

Profit on sale
15,187.50
As on 1. 2.20
Sales price (1,000 shares at ₹ 24) 24,000
Less: Cost of shares sold (1,000 x ₹ 11.875) (11,875)

Balance of 3,100 shares as on 31.3.20 will be valued at $₹ 36,812.50$ (at rate of ₹ 11.875 per share)
(ii) The accounting treatment 'at cost' under the head 'Long Term Investment' in the financial statements of the company without providing for any diminution in value is correct and is in accordance with the provisions of AS 13 provided that there is no decline, other than temporary, in the value of investment. If the decline in the value of investment is, other than temporary, compared to the time when the shares were purchased, provision is required to be made. Let the average sales per month in pre-incorporation period be x
Average Sales (Pre-incorporation) $=\mathrm{x} \times 5=5 \mathrm{x}$
Sales (Post incorporation) from June to December, $2019=21 / 2 x$ X $7=17.5 x$
From January to March, 2020

$$
=31 / 2 x \times 3
$$

$=\underline{10.5 \mathrm{x}}$
Total Sales
28.0x

Sales ratio of pre-incorporation \& post incorporation is 5 x : 28x
2. Calculation of ratio for salaries

$$

Post incorporation period from June, 2019 to March, 2020

$$
\begin{array}{rr}
\left(\frac{9,00,000 \times 10 \times 10}{100 \times 12}\right)= & ₹ \underline{75,000} \\

The cash purchase price of machinery is ₹ 25,977 .
(d) A liability is recognized when outflow of economic resources in settlement of a present obligation can be anticipated and the value of outflow can be reliably measured. In the given case, ABC Ltd. should recognize a liability of ₹ $4,00,000$ payable to XYZ Ltd. When flow of economic benefit to the enterprise beyond the current accounting period is considered improbable, the expenditure incurred is recognized as an expense rather than as an asset. In the present case, flow of future economic benefit from the machine to the enterprise is improbable. The entire amount of purchase price of the machine should be recognized as an expense. Hence ABC Ltd. should charge the amount of ₹ $4,00,000$ (being loss due to change in production method) to Profit and loss state ment and record the corresponding liability (amount payable to XYZ Ltd.) for the same amount in the books for the year ended 31 ${ }^{\text {st }}$ March, 2021.
