Q. No. 1 is compulsory.

Candidates are required to answer any four questions from the remaining five questions. Wherever necessary suitable assumptions should be made by the candidates. Working notes should form part of the answer.

## Answer 1:

(a) Calculation of Cost of Plant

| Particulars |  | Rs. |
| :--- | :--- | ---: |
| Purchase Price | Given | $6,80,000$ |
| Add: Site Preparation Cost | Given | 21,200 |
| Labour charges | $(56,000 \times 200 / 500)$ Given | 22,400 |
| Spare parts |  | 5,000 |
| Supervisor's Salary | $25 \%$ of Rs. 26,000 | 6,500 |
| Technical costs and experimental | $1 / 10$ of Rs. 34,000 | 3,400 |
| Test run <br> production charges | 18,000 |  |
| Architect Fees for set up | Given | 11,000 |
| Depreciation on assets used for <br> installation | Given | 12,000 |
| Total Cost of Asset |  | $\mathbf{7 , 7 9 , 5 0 0}$ |
| Less: GST credit receivable |  | $(40,000)$ |
| Value to be capitalized |  | $\mathbf{7 , 3 9 , 5 0 0}$ |

Note: Further Expenses of Rs. 8,900 from 15.1.2021 to 1.2.2021 to be charged to $\}\{\mathbf{1} \mathbf{~ M}\}$
profit and loss A/c as plant was ready for production on 15.1.2021.

## Answer:

(b) According to AS 16 "Borrowing Costs", a qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. As per the Standard, borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalized as part of the cost of that asset.
The amount of borrowing costs eligible for capitalization should be determined in accordance with this Standard. Other borrowing costs should be recognized as an expense in the period in which they are incurred.
It also states that to the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings.
Thus, eligible borrowing cost $=$ Rs. $10,00,000$ (100 lakhs $\times 12 \% \times 10 / 12$ ) - Rs. $\}$ 50,000 = Rs. 9,50,000

| Particulars | Nature of <br> assets | Interest to be <br> capitalized (Rs.) | Interest to be <br> charged to Profit <br> \& Loss Account <br> (Rs.) |
| :--- | :--- | ---: | ---: |
| Construction of <br> factory building | Qualifying Asset | $9,50,000 \times 40 / 100$ <br> $\quad$Ns. $3,80,000$ |  |

| Purchase of Machinery | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 15 / 100 \\ =1,42,500 \end{array}$ |
| :---: | :---: | :---: | :---: |
| Purchase of and furniture | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 2 / 100 \\ =19,000 \\ \hline \end{array}$ |
| Purchase of truck | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 13 / 100 \\ =1,23,500 \end{array}$ |
| Working Capital | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 30 / 100 \\ =\text { Rs. } 2,85,000 \end{array}$ |
| Total |  | Rs. 3,80,000 | Rs. 5,70,000 |

## Answer:

(c) As per AS 12 'Accounting for Government Grants', Government grants sometimes become refundable because certain conditions are not fulfilled. A government grant that becomes refundable is treated as an extraordinary item as per AS 5.
The amount refundable in respect of a government grant related to revenue is applied first against any unamortised deferred credit remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit, or where no deferred credit exists, the amount is charged immediately to profit and loss statement.
In the present case, the amount of refund of government grant should be shown in the profit \& loss account of the company as an extraordinary item during the year.

## Answer:

(d) (i) When Net Realizable Value of the Finished Good Q is Rs. 450 per unit Value of Closing Stock:

|  | $\begin{array}{c}\text { Valuation } \\ \text { Base }\end{array}$ | Qty. | $\begin{array}{c}\text { Rate } \\ \text { (Rs.) }\end{array}$ | $\begin{array}{c}\text { Amount } \\ \text { (Rs.) }\end{array}$ |

## Answer:

(b) A liability is recognised when outflow of economic resources in settlement of a present obligation can be anticipated and the value of outflow can be reliably measured. In the given case, A Ltd. should recognise a liability of Rs. 1,00,000 to Gamma Ltd.
When flow of economic benefit to the enterprise beyond the current accounting period is considered improbable, the expenditure incurred is recognised as an expense rather than as an asset. In the present case, flow of future economic benefit from the machine to the enterprise is improbable. The entire amount of purchase price of the machine should be recognised as an expense.

## Working Note:

## Cash sales defalcated by the Accountant:

Defalcation period $=1.4 \cdot 2016$ to 18.8.2016= 140 days
Since, 140 days $/ 7$ weeks $=20$ weeks
Therefore, amount of defalcation $=20$ weeks $\times$ Rs. $1,000=$ Rs. 20,000 .

(a) As per AS 10 Property, Plant and Equipment Bearer plant is a plant that
(a) is used in the production or supply of agricultural produce; \}\{1 M\}
(b) is expected to bear produce for more than a period of twelve months; and \}\{1 M\}
(c) has a remote likelihood of being sold as agricultural produce, except for $\}_{\{\mathbf{1} \mathbf{M}\}}$

The following are not bearer plants:
(i) plants cultivated to be harvested as agricultural produce (for example, trees grown for use as lumber);
(ii) plants cultivated to produce agricultural produce when there is more than a remote likelihood that the entity will also harvest and sell the plant as agricultural produce, other than as incidental scrap sales (for example, trees that are cultivated both for their fruit and their lumber); and
(iii) annual crops (for example, maize and wheat).

When bearer plants are no longer used to bear produce they might be cut down and sold as scrap, for example, for use as firewood. Such incidental scrap sales would not prevent the plant from satisfying the definition of a bearer plant. Biological Asset is a living animal or plant. \}\{1 M\}
