## Answer 1:

## (a) Provision:

As per AS-7 'Construction Contracts' when a contract covers a number of assets, the construction of each asset should be treated as a separate contract when:

1. separate proposal have been submitted for each asset;
2. each asset has been subject to separate negotiation and the contractor and customer have been able to accept or reject that part of the contract relating to each asset; and
3. the costs and revenues of each asset can be identified.

## Analysis:

In the given case, GTI Ltd. negotiates with Bharat Oil Corporation Ltd. Separate proposal is submitted for each construction, though a single agreement is entered between the two. Also values for each contract is defined separately such as Rs. 102 lakhs, Rs. 150 lakhs and Rs. 130 Lakhs for Region X, Region Y and Region Z respectively.
Conclusion:
Thus, GTI Ltd. is required to treat construction of each unit as a separate construction contract. Therefore, three separate contract accounts must be recorded and maintained in the books of GTI Ltd. For each contract principles of revenue and cost recognition must be applied separately and net income will be determined for each asset as per AS-7.

## Answer:

(b) Treatment as per AS 4 'Contingencies and Events Occurring After the Balance Sheet Date'

| (a) | The sale of property should be treated as an adjusting event since contracts had been exchanged prior to the year-end. The effect of the sale should be reflected in the financial statements ended on 31.3.2020 and the profit on sale of property Rs. 1,50,000 would be considered. | $\left\{1^{1 / 2} \mathrm{M}\right\}$ |
| :---: | :---: | :---: |
| (b) | The event is a non-adjusting event since it occurred after the year-end and does not relate to the conditions existing at the year-end. However, it is necessary to consider the validity of the going concern assumption having regard to the extent of insurance cover. Also, since it is said that the loss would be fully recovered by the insurance company, the fact should be disclosed by way of a note to the financial statements. | \{ $\left.1^{1 / 2} \mathrm{M}\right\}$ |
| (c) | On the basis of evidence provided, the claim against the company will not succeed. Thus, Rs. 8 million should not be provided in the account, but should be disclosed by means of a contingent liability with full details of the facts. Provision should be made for legal fee expected to be incurred to the extent that they are not expected to be recovered. | \{2 M |

## Answer 1:

(c) Desire Limited amortised Rs. 20,00,000 per annum for the first two years i.e. Rs. 40,00,000. The remaining carrying cost can be amortized during next 5 years on the basis of net cash flows arising from the sale of the product. The $\}$ $\{1 / 2 M\}$ amortisation may be found as follows:

| Year | Net cash flows Rs. | Amortization Ratio | Amortization Amount Rs. |
| :---: | ---: | ---: | ---: |
| I | - | 0.200 | $\mathbf{2 0 , 0 0 , 0 0 0}$ |
| II | - | 0.200 | $\mathbf{2 0 , 0 0 , 0 0 0}$ |
| III | $45,00,000$ | 0.225 | $\mathbf{1 3 , 5 0 , 0 0 0}$ |
| IV | $42,00,000$ | 0.21 | $\mathbf{1 2 , 6 0 , 0 0 0}$ |
| V | $40,00,000$ | 0.20 | $\mathbf{1 2 , 0 0 , 0 0 0}$ |
| VI | $38,00,000$ | 0.19 | $\mathbf{1 1 , 4 0 , 0 0 0}$ |
| VII | $35,00,000$ | 0.175 | $\mathbf{1}$ (em |
| T1/2 M\} |  |  |  |
| Total | $2,00,00,000$ | 1.000 | $\mathbf{1 , 0 0 , 0 0 , 0 0 0}$ |

It may be seen from above that from third year onwards, the balance of carrying amount i.e., Rs. $60,00,000$ has been amortized in the ratio of net cash flows arising from the product of Desire Ltd.

## Answer:

(d) (i) Determination of nature of lease

Fair value of asset Rs. 7,00,000
Unguaranteed residual value Rs. 70,000
$\left.\begin{array}{rl}\text { Present value of residual value at the end of } 4 \text { th Year } & =\text { Rs. } 70,000 \times 0.683 \\ & =\text { Rs. } \mathbf{4 7 , 8 1 0}\end{array}\right\}(1 / \mathbf{~ M})$
Present value of lease payment recoverable $=$ Rs. 7,00,000 - Rs. 47,810

$$
\begin{equation*}
=\text { Rs. } 6,52,190 \tag{1M}
\end{equation*}
$$

The percentage of present value of lease payment to fair value of the asset is

$$
\left.\begin{array}{rl}
= & (\text { Rs. } 6,52,190 / \text { Rs. } 7,00,000) \\
& \times 100 \\
= & 93.17 \%
\end{array}\right\}(1 / 2 \mathbf{~ M})
$$

Since it substantially covers the major portion of lease payments and life of the asset, the lease constitutes a finance lease.
(ii)

- Calculation of Unearned finance income

Annual lease payment

$$
\left.\begin{array}{l}
=\text { Rs. 6,52,190 / } 3.169  \tag{1M}\\
=\text { Rs. 2,05,803 (approx.) }
\end{array}\right\}
$$

- Gross investment in the lease
$=$ Total minimum lease payments + unguaranteed residual value.
$=($ Rs. $2,05,803 \times 4)+$ Rs. 70000
$=$ Rs. $8,23,212+$ Rs. 70,000 = Rs. 8,93,212
- Unearned finance income $=$ Gross investment - Present value of minimum lease payment and unguaranteed residual value.

$$
\begin{align*}
= & \text { Rs. } 8,93,212-\text { Rs. } 7,00,000  \tag{1M}\\
& (\text { Rs. } 6,52,190+\text { Rs. } 47,810) \\
= & \text { Rs. } \mathbf{1}, \mathbf{9 3}, \mathbf{2 1 2}
\end{align*}
$$

Note: Since Neel Ltd. follows FIFO basis, it is assumed that opening inventory has been sold out during the year 2015. Therefore, reduction in inventory would have been taken care of by sale value. Hence no adjustment has been made for the same.
