## Answer 1:

(a) As per AS 17 'Segment Reporting', a business segment or geographical segment should be identified as a reportable segment if:
(i) Its revenue from sales to external customers and from other transactions with other segments is $10 \%$ or more of the total revenue- external and internal of all segments; or
(ii) Its segment result whether profit or loss is $10 \%$ or more of:
(1) The combined result of all segments in profit; or
(2) The combined result of all segments in loss, whichever is greater in absolute amount; or
(iii) Its segment assets are $10 \%$ or more of the total assets of all segments. Further, if the total external revenue attributable to reportable segments constitutes less than $75 \%$ of total enterprise revenue, additional segments should be identified as reportable segments even if they do not meet the $10 \%$ thresholds until at least 75\% of total enterprise revenue is included in reportable segments. Accordingly,
(a) On the basis of revenue from sales criteria, segment $A$ is a reportable segment.
(b) On the basis of the result criteria, segments A \& E are reportable segments (since their results in absolute amount is $10 \%$ or more of Rs. 100 crore).
(c) On the basis of asset criteria, all segments except $E$ are reportable segments.
Since all the segments are covered in atleast one of the above criteria, all segments have to be reported upon in accordance with AS 17.
Hence, the opinion of chief accountant that only segment ' $A$ ' is reportable is wrong.

## Answer:

(c) Desire Limited amortised Rs. 20,00,000 per annum for the first two years i.e. Rs. 40,00,000. The remaining carrying cost can be amortized during next 5 years on the basis of net cash flows arising from the sale of the product. The amortisation may be found as follows:

| Year | Net cash flows Rs. | Amortization Ratio | Amortization Amount Rs. |
| :---: | ---: | ---: | ---: |
| I | - | 0.200 | $\mathbf{2 0 , 0 0 , 0 0 0}$ |
| II | - | 0.200 | $\mathbf{2 0 , 0 0 , 0 0 0}$ |
| III | $45,00,000$ | 0.225 | $\mathbf{1 3 , 5 0 , 0 0 0}$ |
| IV | $42,00,000$ | 0.21 | $\mathbf{1 2 , 6 0 , 0 0 0}$ |
| V | $40,00,000$ | 0.20 | $\mathbf{1 2 , 0 0 , 0 0 0}$ |
| VI | $38,00,000$ | 0.19 | $\mathbf{8}$ item |
| $\mathbf{x}$ |  |  |  |
| VII | $35,00,000$ | 0.175 | $\mathbf{1 1 , 4 0 , 0 0 0}$ |
| Total | $2,00,00,000$ | 1.000 | $\mathbf{1 0 , 5 0 , 0 0 0}$ |

It may be seen from above that from third year onwards, the balance of carrying amount i.e., Rs. 60,00,000 has been amortized in the ratio of net cash flows arising from the product of Desire Ltd.

## Answer:

(d) Calculation of difference between taxable income and accounting income

| Particulars | Amount (Rs.) |
| :--- | ---: |
| GST Liability debited in books | $5,00,000$ |
| Less: GST Liability allowed under Income Tax Act <br> (Section 43B) | Nil |

Tax expense is less than the current tax due to timing difference. Therefore, deferred tax Asset $=30 \% \times 5,00,000=\mathbf{1 , 5 0 , 0 0 0}\}\{\mathbf{2} \mathbf{~ M}\}$

## Answer:

(b) Garner vs. Murray rule: When a partner is unable to pay his debt due to the firm, he is said to be insolvent and the share of loss is to be borne by other solvent partners in accordance with the decision held in the English case of Garner vs. Murray. According to this decision, normal loss on realisation of assets is to be brought in cash by all partners (including insolvent partner) in the profit sharing ratio but a loss due to insolvency of a partner has to be borne by the solvent partners in their capital ratio. In order to calculate the capital ratio, no adjustment will be made in case of fixed capitals. However, in case of fluctuating capitals, ratio should be calculated on the basis of adjusted capital before considering profit or loss on realization at the time of dissolution.
Non-Applicability of Garner vs Murray rule:

1. When the solvent partner has a debit balance in the capital account.

Only solvent partners will bear the loss of capital deficiency of insolvent partner in their capital ratio. If incidentally a solvent partner has a debit balance in his capital account, he will escape the liability to bear the loss due to insolvency of another partner.
2. When the firm has only two partners. \}\{1/2 M\}
3. When there is an agreement between the partners to share the deficiency in capital account of insolvent partner.
4. When all the partners of the firm are insolvent. \}\{1/2 M\}

## Answer:

## (c) Amount receivable from/returnable to Equity Shareholders

Total equity capital - paid up
Less: Balance available after payment to unsecured and preference shares
(3,50,000-2,42,500)
Rs. $(1,07,500)$

Loss to be born by 2,000 equity shares
Rs. 40,500
Loss per share
Rs. 20.25 \}\{1 M\}

Hence,
Amount refunded on Rs. 65 paid share Amount refunded on Rs. 80 paid share

65-20.25 per share = Rs. 44.75
80-20.25 per share= Rs. 59.75 \}\{1 M\}

## Answer:

(c) Section 326 of the Companies Act, 2013 talks about the overriding preferential payments to be made from the amount realized from the assets to be distributed to various kind of creditors. According to the proviso given in the section 326 the security of every secured creditor should be deemed to be subject to a pari-passu change in favor of the workman to the extent of their portion.

$$
\begin{gathered}
\text { Workman's Share to Secured Asset } \left.=\frac{\text { Amount Realized X Workman's Dues }}{\text { Workman's Dues }+ \text { Secured Loan }}\right\}\{\mathbf{1} \mathbf{~ M}\} \\
=\frac{8,00,00,000 \times 2,50,00,000}{2,50,00,000+10,00,00,000} \\
8,00,00,000 \times \frac{1}{5}
\end{gathered}
$$

Workman's Share to Secured Assets = Rs. 1,60,00,000 \}\{1 M\}
Amount available to secured creditor is Rs. 800 Lakhs - Rs. 160 Lakhs = Rs. 640 \}\{1 M\}
Lakhs
Hence, no amount is available for payment of government dues and unsecured creditors.

|  | Rs. <br> Lakh | Rs. <br> Lakh |
| :--- | :---: | ---: |
| Material cost incurred on the contract (net of closing stock) | $21-4$ | 17 |
| Add: Labour cost incurred on the contract (including <br> outstanding amount) |  | 16 |
| Specified contract cost | given | 5 |
| Sub-contract cost (advances should not be considered) |  | $\underline{7}$ |
| Cost incurred (till date) |  | 45 |
| Add: further cost to be incurred |  | $\underline{35}$ |
| Total contract cost |  | $\underline{\mathbf{8 0}}$ |

Percentage of completion $=$ Cost incurred till date/Estimated total cost

$$
\begin{aligned}
& =\text { Rs. } 45,00,000 / \text { Rs. } 80,00,000 \\
& =56.25 \% \quad\}\{2 \mathrm{M}\}
\end{aligned}
$$

Contract revenue and costs to be recognized
Contract revenue (Rs. 85,00,000 x 56.25\%) = Rs. 47,81,250
Contract costs $=$ Rs. 45,00,000 $\}\{\mathbf{2 M}\}$

| Diluted earnings per share | $72,00,000$ | $31,20,000$ | (rounded-off) |
|  |  |  | $\mathbf{2 . 3 1}$ |

Note: The earnings have not been increased as the total number of shares has been increased only by the number of shares $(1,20,000)$ deemed for the purpose of the computation to have been issued for no consideration.
To the extent that partly paid shares are not entitled to participate in dividends during the reporting period they are considered the equivalent of options.

## Answer

(c) (i)

Delivery is delayed at buyer's request and buyer takes title and accepts billing : Revenue should be recognized notwithstanding that physical delivery has not been completed so long as there is every expectation that delivery will be made. However, the item must be on hand, identified and ready for delivery to the buyer at the time the sale is recognized rather than there being simply an intention to acquire or manufacture the goods in time for delivery.
(ii) Instalment sales: When the consideration is receivable in instalments, revenue attributable to the sales price exclusive of interest should be recognized at the date of sale. The interest element should be recognized
as revenue, proportionately to the unpaid balance due to the seller.
(iii) Trade discounts and volume rebates: Trade discounts and volume rebates received are not encompassed within the definition of revenue, since they represent a reduction of cost. Trade discounts and volume rebates given should be deducted in determining revenue.
(iv) Insurance agency commissions for rendering services: Insurance agency commissions should be recognized on the effective commencement or renewal dates of the related policies.
(v) Advertising commission: Revenue should be recognized when the service is completed. For advertising agencies, media commissions will normally be recognized when the related advertisement or commercial appears before the public and the necessary intimation is received by the agency, as opposed to production commission, which will be recognized when the project is completed.

## Working Notes:

1. $\quad$ Fair value $=$ Rs. 170 - Rs. $80=$ Rs. $90 \quad\{1 / 4 \mathbf{M}\}$
2. At 1.12. $\mathrm{X} 2,4,000$ unvested option lapsed on which till date expenses recognized to be transferred to general reserve $=$ Rs. $(80,000+\}\{1 / 2 \mathrm{M}\}$
$1,60,000) \times 4,000 / 8,000=$ Rs. $1,20,000$
3. Expenses charged on lapsed vested options transferred to general reserve $\}\{\mathbf{1 / 2} \mathbf{~ M}\}$ = 1,000 x Rs. 90 = Rs. 90,000

## Answer:

(e) (i)

The respective voting right of various shareholders will be

| X | $=$ | $2 / 3 \times 30 / 100$ | $=$ | $3 / 15$ | OR 20\% |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Y | $=$ | $2 / 3 \times 30 / 100$ | $=$ | $3 / 15$ | OR 20\% |
| Z | $=$ | $2 / 3 \times 40 / 100$ | $=$ | $4 / 15$ | OR $26.67 \%$ |
| A | $=$ | $1 / 3 \times 50 / 100$ | $=$ | $1 / 6$ | OR $16.67 \%$ |
| B | $=$ | $1 / 3 \times 30 / 100$ | $=$ | $1 / 10$ | OR $10 \%$ |
| C | $=$ | $1 / 3 \times 20 / 100$ | $=$ | $2 / 30$ | OR 6.67\% |

Hence their relative weights are 3/15: 3/15: 4/15: 1/6: 1/10:2/30 or $\}\{2 \mathrm{M}\}$
6:6:8:5:3:2.
(ii) The voting power in respect of shares with differential rights shall not exceed seventy four percent of the total voting power including voting power in respect of equity shares with differential rights (DVR) issued at any point of time as per Companies (Share Capital and Debentures) Rules.

|  | Rs. |
| :--- | ---: |
| Existing Equity Share Capital paid up | $1,00,00,000.00$ |
| Proposed DVR | $50,00,000.00$ |
| Post DVR Equity Share Capital paid up | $1,50,00,000.00$ |
| $\begin{array}{l}\text { \% of shares with DVR to total paid up Equity Share } \\ \text { Capital (including Equity Shares with DVR) } \\ \text { (Rs. } 50,00,000 / \text { Rs. } 150,00,000 \times 100)\end{array}$ | $\mathbf{3 3 . 3 3 \%}$ |$\} \mathbf{1 ~ M \}}$

In the given case $33.33 \%$ of shares with DVR to total post issue paid up Equity Capital (including Equity Shares with DVR) is not exceeding 74\%. Hence, the company can issue such equity shares.
