| Profit (A-B) $\mathbf{~ M ~}$ |  |

(ii) According to AS 2 'Valuation of Inventories', inventories should be valued at the lower of cost and net realizable value.

## Product - A

| Material cost | $\begin{gathered} \text { Rs. } 40 \times 200= \\ 8,000 \end{gathered}$ |  | $\left\{\begin{array}{c} \{3 \text { Item } x \\ 1 / 4= \\ 3 / 4 \mathrm{M}\} \end{array}\right.$ |

| Total cost |  | Rs. 18,000 |  |
| Realizable value [200 x (110-11)] |  | Rs. 19,800 |  |
| Hence inventory value of Product -A |  | Rs. 18,000 |  |

Product - B

| Material cost | Rs. $45 \times 800=36,000$ |  |  |

| Hence inventory value of Product-B |  | Rs. 56,000 | 3/4 M |
| Total Value of closing invento B $(18,000+56,000)$ | i.e. Product A + Product | Rs. 74,000 | \{1/2 M \} |

## Answer:

(c) According to AS 16 "Borrowing Costs", a qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. As per the Standard, borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalized as part of the cost of that asset. The amount of borrowing costs eligible for capitalization should be determined in accordance with this Standard. Other borrowing costs should be recognized as an expense in the period in which they are incurred. It also states that to the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings.
Thus, eligible borrowing cost $=$ Rs. 10,00,000 (100 lakhs $\times 12 \% \times 10 / 12$ )

- Rs. 50,000 = Rs. 9,50,000

| Particulars | Nature of assets | Interest to be capitalized (Rs.) | Interest to be charged to Profit \& Loss Account (Rs.) |
| :---: | :---: | :---: | :---: |
| Construction of factory building | Qualifying Asset | $\begin{array}{r} 9,50,000 \times 40 / 100 \\ =\text { Rs. } \mathbf{3 , 8 0 , 0 0 0} \end{array}$ | NIL |
| Purchase of Machinery | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 15 / 100 \\ =\mathbf{1 , 4 2 , 5 0 0} \end{array}$ |
| Purchase of and furniture | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 2 / 100 \\ =\mathbf{1 9 , 0 0 0} \end{array}$ |
| Purchase of truck | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 13 / 100 \\ =\mathbf{1 , 2 3 , 5 0 0} \end{array}$ |
| Working Capital | Not a Qualifying Asset | NIL | $\begin{array}{r} 9,50,000 \times 30 / 100 \\ =\text { Rs. 2,85,000 } \end{array}$ |
| Total |  | Rs. 3,80,000 | Rs. 5,70,000 |

## Answer:

## (b) Provision:

As per AS-7 'Construction Contracts' when a contract covers a number of assets, the construction of each asset should be treated as a separate contract when:

1. separate proposal have been submitted for each asset;
2. each asset has been subject to separate negotiation and the contractor and customer have been able to accept or reject that part of the contract relating to each asset; and
3. the costs and revenues of each asset can be identified.

## Analysis:

In the given case, GTI Ltd. negotiates with Bharat Oil Corporation Ltd. Separate proposal is submitted for each construction, though a single agreement is entered between the two. Also values for each contract is defined separately such as Rs. 102 lakhs, Rs. 150 lakhs and Rs. 130 Lakhs for Region X, Region Y and Region Z respectively.

## Conclusion:

Thus, GTI Ltd. is required to treat construction of each unit as a separate construction contract. Therefore, three separate contract accounts must be recorded and maintained in the books of GTI Ltd. For each contract principles of revenue and cost recognition must be applied separately and net income will be determined for each asset as per AS-7.

## Answer:

(c) As per AS 17 'Segment Reporting', a business segment or geographical segment should be identified as a reportable segment if:
(i) Its revenue from sales to external customers and from other transactions with other segments is $10 \%$ or more of the total revenue- external and internal of all segments; or
(ii) Its segment result whether profit or loss is $10 \%$ or more of:
(1) The combined result of all segments in profit; or
(2) The combined result of all segments in loss, whichever is greater in absolute amount; or
(iii) Its segment assets are $10 \%$ or more of the total assets of all segments.

Further, if the total external revenue attributable to reportable segments constitutes less than $75 \%$ of total enterprise revenue, additional segments should be identified as reportable segments even if they do not meet the $10 \%$ thresholds until at least $75 \%$ of total enterprise revenue is included in reportable segments.
Accordingly,
(a) On the basis of revenue from sales criteria, segment $A$ is a reportable segment.
(b) On the basis of the result criteria, segments A \& E are reportable segments (since their results in absolute amount is $10 \%$ or more of Rs. 100 crore).
(c) On the basis of asset criteria, all segments except $E$ are reportable segments.

Since all the segments are covered in atleast one of the above criteria, all segments have to be reported upon in accordance with AS 17.
Hence, the opinion of chief accountant that only segment ' $A$ ' is reportable is wrong.
